LKDN with the support of DCI & Jacksonville Urban League have teamed up to bring you an important educational and communications training workshop.

This workshop educates those who need, or will need a kidney transplant and their advocates, friends and family members that want to help in the search, so invite them to join you. You will learn the facts about living donation and leave with the skills to effectively communicate this information to others. There are many benefits of a kidney from a living donor, i.e. they last on average twice as long as one from a deceased donor. **If you are apprehensive about talking to others about your situation, this workshop is for you!**

You will leave the workshop with a plan that will start you on the path to a successful living kidney transplant experience.

This is a complimentary class offered by LKDN and supported by DCI and The Jacksonville Urban League. The workshop is taught by transplant recipients and living donors who bring practical applications to this critical subject.

Class size is limited to 25 – 30, please register and indicate number of reservations you need. Harvey Mysel email: harvey@LKDN.org (312)473-3772
