What was the best part of the program for you?

Hearing about the role of the advocate

I thought this was eye opening in terms of advocating

Exceeded expectations

Opportunity to meet in small groups

Talking with others who have gone through the process

Understanding that there's a whole lot more I should be doing

I normally don't care for breakout sessions, but keeping them short was good

Having physicians there was a plus

Learning more things to say - having my husband and son hear it directly and not from me

Excellent program, communicating your need

Telling story about my need, ways to NOT asking for a living donor

Content was excellent and presentation style was just perfect

Learning new things. Power Point slides were excellent

Suggestions for transmitting the need and role play

It was fabulous, loved your presentation

Great statistics and best practice sharing

The suggestion for a sincere and widespread message

How can we improve the program?

More group discussions and open format would have been better than primarily lecture
